

FEARS OF A DEFICIT. CONSERVATIVE CONGRESSMEN FEEL UNEASY.

Appropriations Likely to Exceed the Revenues by Many Millions—Program for the Week.

WASHINGTON, May 26.—Conservative members of Congress are beginning to feel a little uneasy about the way appropriations bills are piling up this season. The amount of appropriations on bills already passed and pending point to an aggregate that will exceed government revenues by many millions during the coming fiscal year. Government revenue from all sources for the year, including the postal revenue, was placed by the treasury department recently at \$450,400,000. The regular annual appropriation, exclusive of deficiency, will amount to about \$233,000,000 and the permanent appropriations, including the sinking funds will reach \$101,600,000. The deficiency bills will, according to the estimates of the members of the Senate appropriation committee, reach at least \$31,000,000. This makes an aggregate of \$455,600,000 of appropriations exceeding the revenue of \$400,000,000. These figures and estimates have been put in the hands of the Senate, and they are likely to amount to a good deal more at this session, as the public building bills already reported to the House carry an aggregate appropriation of \$14,000,000, say nothing of the other bills. But if the session's appropriations carry only the same amount as at the last session, the total of appropriations will amount to \$547,353,753, leaving a deficiency of \$97,000,000. These figures and estimates have been put in the hands of the Senate, and they are likely to amount to a good deal more at this session, as the public building bills already reported to the House carry an aggregate appropriation of \$14,000,000, say nothing of the other bills. But if the session's appropriations carry only the same amount as at the last session, the total of appropriations will amount to \$547,353,753, leaving a deficiency of \$97,000,000.

REGARDING COMPOUND LAND.

Congressman Wilson of Kentucky Submits a Report to the House.

WASHINGTON, May 26.—Representative Wilson (Ky.) has submitted to the House from the committee on agriculture a report containing his views on the bill reported by the committee on agriculture some time ago defining and taxing compound land. It says that there are points involved in the bill of the greatest importance to the vast agricultural interest of the United States and in danger of being entirely overlooked. From the arguments presented before the committee in favor of the bill the inference is drawn, the report says, that the immediate result of the enactment will be to increase the value of every hog in the United States 72 cents in the farmers' hands. These statements and inferences, the report says, are not clear. The claim that the depreciation in the value of swine and land is due to the manufacture of land compound, Mr. Wilson holds, is the mind established. The greatest injury to the farmer and his hog crop comes from the unscrupulous methods of the packing houses and stockyard buyers—methods which the honest farmer would not employ and could not if he would. He says he is very reluctant to endorse a measure like the one proposed, which, he believes, will either increase the price or restrict the sale of the hog crop, and which would do the farmers no good but the laboring man an injury.

ANXIOUS TO BE HEARD.

Manufacturers and Importers Besieging the Senate Finance Committee.

WASHINGTON, May 26.—The members of the Senate Finance Committee are being besieged by manufacturers and who wish them to give hearings in regard to clauses in the tariff bill. At the urgent request of Senator McMillan a hearing was given to the fine-cut tobacco men last Thursday. An effort to keep the matter secret was unsuccessful, and now the committee is experiencing some difficulty dodging importunate agents of the different manufacturing interests. A number of amendments to the bill were agreed to by the Ways and Means Committee at the last moment, which McKinley had no opportunity to present before the hour fixed for voting on the bill. The men who were present in behalf of interests which could be affected by the amendments feel that they have a claim upon the Finance Committee now and it is difficult to refuse them a hearing.

WORK IN CONGRESS.

Matters That Will Engage the House and Senate This Week.

WASHINGTON, May 26.—Several subjects of importance are likely to engage the attention of the Senate this week. Senator Wilson's bill to place import duties on original packages under State revenue is the special order for Tuesday, to be discussed to a finish. The committee on appropriations expect to have the fortifications and legislative, executive, and judicial appropriation bills ready to report during the week. The conference report on the anti-trust bill may be presented early in the week and will doubtless give rise to much debate. The postoffice appropriation bill is within easy reach on the calendar and the conference reports on the District of Columbia appropriation bill, the service pension bill, and the administrative customs bill are among the possible subjects for consideration.

Death of Speaker Reed's Mother.

WASHINGTON, May 26.—Speaker Reed has received a telegram notifying him of the death of his mother at Des Moines, Mo. Mrs. Reed has been ill for several weeks, but no immediate danger was apprehended, and the news came as a shock to the speaker, who had received recently encouraging reports of his mother's condition. Speaker Reed has left for Des Moines.

Must Keep Off the Strip.

WASHINGTON, May 26.—The President, having received information that cattlemen are invading the Cherokee strip in violation of his recent proclamation, has instructed Brig.-Gen. Merritt, commanding at St. Louis, to enforce the provisions of the proclamation against all persons found violating the same.

REVISION IS DELAYED.

Dr. Patton's Views Adopted by the Presbyterian Assembly.

CHICAGO, May 26.—The venerable Dr. James McCosh, ex-president of Princeton, was introduced and addressed the Presbyterian assembly Saturday. He was followed by Rev. Dr. Matthews of England, general secretary of the Presbyterian alliance. The report of the committee to which the several resolutions relative to the appointment of a committee on revision were referred was presented, containing the following resolutions:

"Resolved, 1. That a committee of one member of the assembly from each synod, to-wit: Nineteen ministers and one layman, be appointed by the moderator to nominate to this assembly a committee, consisting of fifteen ministers and ten elders, which shall be called 'the assembly's committee on revision of the confession of faith,' which committee, when constituted by the general

assembly, shall consider the suggestions made by the presbyteries in their answers to the second of the above questions, and formulate and report to the general assembly of 1901 such alterations and amendments to the confession of faith as in their judgment may be deemed desirable.

"2. This committee on revision shall meet at the call of a temporary chairman to be named by the moderator and shall upon meeting appoint their own permanent chairman and shall have power to fill vacancies.

"3. This committee is instructed to meet at an early date, not later than Oct. 31, 1900, and diligently pursue its work, that it may promptly report at the meeting of the general assembly of 1891.

"Resolved, That this committee on revision be, and hereby are, instructed that they shall not propose any alterations or amendments that will in any way impair the integrity of the reformed or Calvinistic system of doctrine taught in the Presbyterian church.

Great applause followed the reading of the report. Dr. McCracken heartily seconded the paper and Dr. Erskine proceeded to address the assembly in its support. He was interrupted by cries of "Question," and soon yielded to the assembly's impatience to get to a vote. The report was unanimously adopted and the assembly sang "Praise God From Whom All Blessings Flow."

The moderator announced the actual committee on revision, and among the names were the following: William C. Roberts, temporary chairman, Illinois; Henry B. Saylor, Indiana; G. Donnan, Iowa; John T. Oxtoby, Michigan; Daniel R. Noyes, Minnesota; Everett C. Eastman, Wisconsin.

The committee at once went into session.

The committee on bills and overtures reported in favor of a consensus creed. The question was put and the report adopted by an almost unanimous vote. This finishes the important business of the assembly of 1890.

CROPS IMPROVED BY RAINS.

Grain in All the Northwestern States Greatly Benefited.

WASHINGTON, May 26.—Following is the weather crop bulletin for the week just ended furnished by the War department. About the normal temperature has prevailed in the Southern States, the Ohio Valley, and on the New England coast during the past week, while the cold weather has continued in the lake regions and the Northwest, the average temperature in the upper lake region and the Upper Mississippi Valley ranging from 5 to 10 degrees below the normal. There has been more rain than usual during the week in Southern Minnesota, South Dakota, and portions of Iowa, Missouri and Illinois. Well-distributed showers occurred throughout the Southern States and generally from Texas northward to Dakota. Over the grain regions of Southern Minnesota and South Dakota rainfall exceeded one and one-half inches, while in the northern portions of these States about one-half inch of rain is reported. The recent rains in the Northwest have greatly improved the crop conditions in that section, including the States of Minnesota, Dakota, Nebraska and Iowa, although droughts are reported in North Dakota and Northwest Minnesota. While the rains have been favorable for small grain it has been too cool for corn, which is being replanted in some sections of Iowa, Illinois, and Missouri.

GIVEN UP FOR LOST.

The Freight Steamer Baywater Believed to Have Sunk.

NEW YORK, May 26.—The steamer Baywater, which sailed from New York for Liverpool on Monday last, is believed to have been lost. She had a crew of thirty men, all of whom are supposed to have gone to the bottom with the ill-fated vessel. It is thought that the steamer collided with an iceberg and went to pieces. She was posted two weeks ago by the Lloyd's of London, as missing. The Baywater was commanded by Capt. Taylor. She was of 1,000 tons net, 1,623 gross, and 1,322 tons under deck. She was built in 1880 at Sunderland, England, by J. Blunier & Co., and was owned by Watts, Ward & Co. of London. She was a freight steamship and was built of iron throughout. The Baywater carried a cargo of 74,750 bushels of wheat, shipped by Messrs. G. Amshel & Co. of this city. It was valued at almost \$25,000.

THE CARPENTERS' STRIKE.

Cities That Have Acceded to the Demands of the Men.

PHILADELPHIA, May 26.—The Carpenters' union, which is striking in Philadelphia, in its issue of this week will say that up to date the eight-hour day has been secured this season for the carpenters in twenty-seven cities and towns, affecting 23,355 men in the trade. Nine cities are still out for the eight-hour day and six compromised on nine hours. The nine-hour day has been established in seventy-two cities and towns, with the agreement for eight hours a day Saturday in many instances. This concession affects 14,189 carpenters, while gains have been made in the shape of increased wages in eighteen other cities, affecting 2,662 men.

NEWS IN BRIEF.

The Farrelly building at Morrisstown, N. J., has been destroyed by fire; loss \$100,000.

WILL MULLINS, a negro, was fatally stabbed at Nashville, Tenn., by an unknown white man.

Mrs. ELIZABETH SIMPSON, a widow forty years old, committed suicide by hanging at Chicago.

LUCY EDWARDS, a colored woman living at Springfield, Ill., claims to have been born in 1774.

At Lydia, S. C., two brothers, Murray and Ben Knotts, became engaged in a quarrel and Ben was killed.

DELING a family quarrel at Peoria, Ill., John Leslie, aged 67, fatally stabbed his son-in-law, Ed Sims.

The famous Tom Moore harp, the property of G. W. Childs will be exhibited at the Scotch-Irish congress at Pittsburgh this week.

FRENCH men-of-war have seized some nets belonging to English fishermen in St. George's Bay, and the latter are determined to fight for their property.

PATRICK BRENNOCK, a Chicago carpenter, 24 years old, committed suicide by swallowing carbolic acid. His father had rebuked him for getting drunk.

F. E. NORRIS, a fisherman, shot Fat E. Evans at Chattanooga, Tenn. Evans had boarded Norris' boat, threatening to kill him with a knife. Norris gave himself up.

ALL the criminals confined in the Belmont County Jail at St. Clairsville, Ohio, are now on the escape.

Among them were William Robinson, Mike McDonough, Eddie Combs, Abe Boston, Louis Noble, and William Manly.

JOHN J. WOODWARD, traveling for the Holloman Roofing company of Philadelphia, is in jail at Cleveland on the charge of obtaining money by false pretenses. He has realized \$10,000 by representing that he owned an unimproved farm of 215 acres in Ohio.

Pears' soap secures a beautiful complexion.

Tourists.

Whether on pleasure bent or business, tourists are likely to be troubled by Syrup of Figs, as it acts most pleasantly and effectively on the kidneys, liver and bowels, preventing fevers, headaches and all forms of sickness. For sale in 50c. and \$1.00 bottles by all leading druggists.

BISMARCK IS READY.

WILL RESPOND TO THE FATHERLAND'S CALL.

He Evidently Thinks His Services Will be Needed—England and the American Tariff.

LONDON, May 26.—The last post from St. Petersburg brings an authentic and historically valuable interview between Bismarck and the correspondent of a Russian paper. The question was asked: "Has your highness then really the intention of remaining inactive in the future?" and the answer given was: "No. Personally I shall do nothing, but should the fatherland call me and need me, then I shall immediately respond to the call in so far as my strength permits." What Bismarck understands by the call of his country he does not say.

His son, Herbert Bismarck, who as the head of the foreign office conducted the Samoan conference with marked ability, returned to Friedrichsruhe last night after a week of social relaxation in England.

"I would very much like to go to America," said Herbert Bismarck, "and American acquaintance with an energetic emphasis on 'America,' his reason being that his father had received evidence of good will from so many sources in that country that he was sure it must be a pleasant place. As to his future he could say no more than he knew, and that was little. He shrugged his shoulders dependently and said: 'No one can tell what can happen.'"

BROKEN UP BY FORCE.

An Irish Meeting Dispersed—Two Bombs Exploded.

DUBLIN, May 26.—Notwithstanding the fact that the government had proclaimed the proposed Nationalist meeting in Tipperary, a crowd of 300 persons met Messrs. Dillon and O'Brien and several other members of Parliament on their arrival at Limerick Junction, and a meeting was quickly organized. Speeches were made by Messrs. Dillon, O'Brien, and John Keefe, who were warmly received and had to content themselves with warning the speakers. After the meeting the Nationalist members of Parliament drove to New Tipperary where an attempt was made to hold another meeting. The police, however, stopped Mr. O'Brien when he attempted to speak and dispersed the crowd by the free use of the batons. O'Brien denounced the police as cowards, but he advised the people not to offer undue resistance, as the National leaders earnestly desired to avoid bloodshed. During a banquet at the National hotel, two bombs were exploded in the street, but no one was injured.

ENGLAND MAY RETALIATE.

She May Impose a Tariff on American Products.

LONDON, May 26.—In suggesting, in reply to a query as to the United States tariff bill, that "there is no opportunity of procuring reciprocal reductions unless we are imposing duties upon staple articles of production from the country in question," the Ministry has thrown out a hint of a possible policy of retaliation upon the United States for an increase in the tariff. Much feeling prevails throughout the manufacturing districts of England in regard to the proposed increase of American duties, and the sentiment is shared deeply in Holland owing to the expected disastrous effect of the American tariff on the trade in Sumatra tobacco. It is thought possible, therefore, that some policy may be formulated as already suggested in Holland, in discrimination against American products.

AN UNSOLVED MYSTERY.

The Strange Fate of a Party of Boatmen in Massachusetts.

BOSTON, Mass., May 26.—The Cooper family of Dorchester have erected a monument in Cedar Grove cemetery, Dorchester, to the memory of Thomas Cooper, for fifteen years a member of the Boston police department, and his son, William Cooper, for many years a Boston fireman. The erection of the monument recalls a tragedy enacted twelve years ago. Thomas Cooper, John Hunt, and Charles Pierce went sailing from Dorchester in the sloop-patch-Seed one September day in 1878. The next day the Seed was found among the rocks on Cohasset beach and a small boat was found on the shore, both with holes in their bottoms. The Seed's name had disappeared, and the only way she was identified was by a bag of shot found in the cabin. "T. Cooper, Dorchester," the men's guns, hunting outfits, and everything but the bag of shot had disappeared. No trace of the men was ever found. The party was well supplied with money, having taken about \$500, and it is believed that they attempted to land in the small boat and were murdered.

THE BLUE AND THE GRAY.

Victory's Royal Reception to the Members of the Opposing Armies.

VICKSBURG, Miss., May 26.—Great preparations have been made here for the reunion of the blue and the gray, which lasts from the 25th to the 30th. The city is lavishly decorated with flags and pictures of the leaders on both sides, the colors intermingling. A delegation from Illinois, accompanied by the Sibley cornet band, has arrived, and a large attendance of both armies is assured. Thursday a grand barbecue will take place on the Champion Hills battlefield. There are to be over 300 head of sheep, cattle and hogs killed for this barbecue. Prominent men from both sides will deliver addresses. The best of feeling prevails and the old veterans of the blue and gray are having a grand time.

Won by Yale.

NEW HAVEN, Conn., May 26.—Yale won the boat race, defeating the Atlantians by one length. The water was rough and for a time it was feared that it would be impossible for the crew to row, but the waves subsided about noon. Over five thousand people were on steamboats in the harbor and on piers near the finish line.

John Baker Convalescent.

BELLEVILLE, Ill., May 26.—John Baker, who was dangerously ill in the early part of last week, is now convalescent.

A Beautiful Magazine.

The Chicago Journal says: "Not content with beating the world with its art and letters for 1890, the Chicago & Grand Trunk railway has now eclipsed its own record by the publication of a magazine entitled 'Gateways of Tourist Travel.' The work is elegantly gotten up and contains a host of the finest photographs views of scenes along the line of the road. The whole runs to work of art."

This beautiful book is printed on coated book paper, with seventy-five engravings, all of the photographs or half-tone process, fifty large quarto pages and mailed free to any address. Receipts 20 cents in postage stamps by W. E. Davis, G. P. & T. A. Chicago & Grand Trunk Railway, Chicago, Ill.

The sale of summer tourists' tickets commences June 1. The "Seaside and White Mountain Special," fastest train in the world, will be run each Wednesday, commencing with June 25. Write for particulars.

\$75.00 to \$250.00 a month can be made by the Chicago & Grand Trunk Railway. Write for particulars.

Successors to J. A. Fathers Corner Main and Park Place.

WILL FORM A FEDERATION.

INDIANAPOLIS, Ind., May 26.—Five hundred delegates attended the great meeting of railway employees in this city. The engineers, firemen, conductors, and brakemen were represented. By a unanimous vote it was decided that the railway employees represented should form a federation for mutual help and protection.

Earthquake in New York.

THIRDS HILL, N. Y., May 26.—An earthquake shock here unsettled several buildings but did no great damage. The people were considered frightened.

BRIEFLETS.
Did you get a side track?
Regular drill night—Janesville Light Infantry.
Regular practice night of Bower City Band.
Rev. Rev. E. O. Taylor at Court Street lecture room this evening.
Quite a number left for Milwaukee yesterday on the German excursion.
It is said that O. M. & S. P. stands for "Come, Measure, and Side Tracks Placed."
No Christian Science service till Sunday, June 1st, at 154 South Jackson street.
Charles Hemming, of Rockford, is in the city to-day renewing old acquaintances.
The Evening Star Club gave a very pleasant party at Hilbert's hall Saturday evening.
Mrs. Mary M. Lane is in Chicago visiting friends and will be absent about two weeks.
The Bower City Band will give a concert at the court house park next Wednesday night.
Washington Camp No. 1, Patriotic Sons of America, assemble in regular weekly meeting this evening at Liberty hall.
Janesville Lodge No. 55, F. and A. M., assemble in regular semi monthly communication this evening at Masonic hall.
Thompson's Bohemian Glass Blowers arrived in the city this morning and will exhibit for a week at No. 118 West Milwaukee street.
At the close of Mr. Taylor's lecture this evening, People's Lodge I. O. G. T. will hold a short session for admission of new members.
The St. Paul Railway Company have eating and sleeping cars here for the accommodation of the section men. There are about three hundred men at work.
The case of Scott against Holdridge has been held open by Judge Bennett until next Wednesday morning, to allow Mr. J. B. Doe, Jr., to attend supreme court at Madison.
The Janesville Cotton Manufacturing Co. received twenty-two car loads of baled cotton one day last week direct from St. Louis. The twenty-two cars composed the entire train from Chicago to Janesville.
Night Officer Carroy arrested a drunken woman by the name of Mulligan last night. She made the street resonant with her yell of "murder." It was a tough job, but "Mike" finally landed her in jail.
A crowd of boys from the Northwestern University at Evanston, Ill., were in the city this morning. They came in with a special car and made the town resound with their college yell. They are the base ball club and are celebrating victories won.
Miss Hattie Kinney was quite seriously injured Saturday afternoon while riding horseback. She was thrown to the ground and received a severe shaking up. She was taken to the home of her parents, Mr. and Mrs. J. H. Kinney where she is now resting comfortably.
The "Third Ward" and "Blackhawk" played a game of ball yesterday afternoon. At the close of the game the score stood 22 to 2 in favor of the "Third Ward." The battery for Third Ward was Minnick and Phelps. For the Blackhaws, Keboe and Cullen.
Ford & Crossett have just received a fresh shipment of choice Hard Wheat from the Red River Valley, Dakota, over the New St. Paul railroad at their mills, and are making their celebrated Ring Flour, Fancy Patent and Golden Wedding Flour. Ask your grocers for it and take no other.
Rev. E. O. Taylor, district lecturer for the Independent Order of Good Templars, will lecture this evening in the lecture room of the Court Street church on "Scientific Temperance," illustrating his subject with charts and experiments, such as distilling alcohol from cider, beer, etc. His lecture is free and the public is invited.
"The Anglomaniacs," the new anonymous serial of New York life, which will begin in the June Century, is said to be written by a well qualified observer; and, while it satirizes a certain current fad, is a serious and not a prejudiced study of the Anglomaniacs which characterize a small part of the population. The book has two heroes, both English, and one of them representing one of the best English types.

PERSONAL.
Mrs. J. M. Steels returned from Iowa on the vestibule Saturday evening.
H. A. Skovien, of Cherokee, Iowa, is in the city visiting friends and relatives.

Mrs. Judge Ous, of St. Paul, is in the city the guest of Mr. and Mrs. Garrett Vander, No. 201 Fourth avenue.
City Attorney J. B. Doe, Jr., is in Madison to-day arguing the case of the city against Carpenter in supreme court.
Mr. and Mrs. J. M. Hancock, of Chicago, are in the city, and will be the guests of Alderman and Mrs. O. S. Jackson for two or three weeks.
Mr. and Mrs. W. C. Colton, of Elizabeth, New Jersey, who have been in the city visiting Mrs. Colton's parents, Mr. and Mrs. Frank Gray, were called home on Friday last by the sudden death of Mr. Colton's only sister.
Messrs. John McGee, F. S. Atkin, A. D. Campbell, R. R. Minton, J. B. Moll, Edward Liss and Lou Barber, all high officials of the C. M. & S. P. R. Y. Co. are at the Myers home. They are superintending the building of the side tracks.

MEMORIAL DAY.
Meeting of the General Committee of Arrangements.
There will be a meeting of the general and sub-committees on Memorial Day exercises to-morrow morning at ten o'clock, at Dr. Thor. Judd's office. A representation from the G. A. R. is requested to be present.

YOU HARDLY REALIZE THAT IT IS MIDDAY when taking Carter's Little Liver Pills; they are very small; no bad effects; all troubles from torpid liver are relieved by their use.

There is some opposition expressed for the continuance of the side track down South River street to the Janesville Machine Company's plant, but it is sincerely hoped this opposition will be overcome in some amicable manner and the track completed now.

Let every one rejoice.
Beecham's Pills cure Bilious and Nervous Ills.

There will be a special meeting of the directors of the Loan, Savings & Building Association at the office of Miss Heyner, Wednesday evening, May 28th, at 7:30 o'clock, for the purpose of selling money to members wishing to borrow.

S. B. SMITH, Pres.
A. P. EURNHAM, Sec.

TO BE FREE FROM SICK HEAD-aches, biliousness, constipation, etc., use Carter's Little Liver Pills. Strictly vegetable. They gently stimulate the liver and free the stomach from bile.

FOR SALE CHEAP—A Remington typewriter, No. 4, in good condition. Enquire at this office.

CRUSHED BY A RAIL.
Two Men While Laying Track This Morning Hurt by a Falling Rail.

Two men laying track were hurt this morning by rails falling on their feet. One of them, whose name could not be learned, lost his great toe. He lives at Madison, and was taken from the company surgeon's office to the depot in the patrol wagon. The other man's name was George Kelly, and his home is at Milton Junction. He had his foot quite badly crushed. Both are doing well.

THE WEATHER.
For Wisconsin—Fair Weather. Except Showers at Southeast. Cooler. Northwestern Winds.

At seven o'clock on Sunday morning the thermometer indicated 68 degrees above zero. Clear with southwest wind. At one o'clock p. m. the register was 72 degrees above zero. Partly cloudy with southwest wind. For the corresponding hours last year the register was 50 and 61 degrees above zero. At seven o'clock this morning the thermometer indicated 59 degrees above zero. Partly cloudy with south wind. At one o'clock p. m. the register was 63 degrees above zero. Partly cloudy with southwest wind. For the corresponding hours one year ago the register was 52 and 65 degrees above zero.

NOT ONE IN TWENTY ARE FREE from some little ailment caused by inaction of the liver. Use Carter's Little Liver Pills. The result will be a pleasant surprise. They give positive relief.

TOBACCO MARKET.

300 cases, crop of 1888, Wisconsin Havana, at 10 to 13 cents.
168 cases, crop of 1887, Pennsylvania Seed Leaf, at 124 to 144 cents.
280 cases, crop of 1888, Pennsylvania Havana, at 13 to 11 cents.
250 cases, Sundries, at 64 to 35 cents.
Total, 1,637 cases.

Protect the System from malaria. It is possible to do this even in regions of country where malaria is most rife, and where the periodic fevers which it causes assume their most formidable types. The immense popularity of Hostetter's Stomach Bitters is very largely due to the fact of its efficacy as a remedy for chills and fever, bilious remittents, and as a preventive of the various forms of malarial disease. In those portions of the West and South where complaints of this nature prevail, and in the tropics, it is particularly esteemed for the protective influence which it exerts; and it has been very widely adopted as a substitute for the dangerous and quinine, and other poisonous and expensive remedies which have not been among the last physicians have not been among the last to concede its merits, and the emphasis professional endorsements which it has received have added to the reputation it has obtained at home and abroad.

SIDE AND SPUR TRACKS.
The Chicago, Milwaukee & St. Paul Company Surprise the People of Janesville.
BY BUILDING SIDE TRACKS TO ALL MILLS AND FACTORIES.
Three Hundred Men Now at Work Track Laying—The Band Serenades the Workmen—All Rejoice.
The people of Janesville were a surprised community this morning. Not only surprised but astonished as well. Surprised and astonished as they all were, they were almost unanimously pleased, only two or three persons who were directly interested in a pecuniary way, were heard to express sentiments of displeasure.
At an early hour this morning the Chicago, Milwaukee & St. Paul railway company, under the supervision of Division Superintendent F. S. Atkin, put several hundred men at work laying sidetracks and spur tracks to the manufacturing establishments and flouring mills of this city. Operations were commenced as early as three o'clock in the morning, and between six and seven o'clock when people began to stir about town, ties and railway iron had been distributed along North Main street, along North River street, and on the bank from the Ford mill to Ford & Crossett's mill near Milwaukee street. Hundreds of men were at work placing ties and railway iron in position. "What is the matter now?" was heard from everyone. One prominent citizen was seen, as he reached the crossing by the First National Bank, to stop and throw up both hands. His eyes were on the army of laborers stretched along North River street. After holding up his hands and gazing for a minute or more, he exclaimed in a loud tone of voice, "Hurrah, where are we now?"
Very few people in the city were aware that such a thing as putting in a general system of side tracks was even contemplated by either road. A very few men who were approached within a day or two in regard to right of way were "on to" it, but kept the matter very quiet. Superintendent Atkin and several prominent railway officials have been in the city for some days past, quietly looking over the ground and making plans. Everything was decided upon last Friday, and preparations were at once set on foot to build the road. Last evening and during the night men and material arrived, and as early as three o'clock this morning active operations were commenced.
A Gazette representative met Superintendent Atkin this morning, and in reply to questions informed the reporter that the Chicago, Milwaukee & St. Paul company was building the sidetracks for the convenience of the Janesville manufacturers and millers. "We are building the track from the north end of our gravel pit on the bluff near the gas house, across Bluff street, and down by the gas house, thence around A. O. Kent's works, the ice houses of Smith & Gateley, passing under the North Main street bridge, following Main street south to the east end of the dam, crossing the river at this point landing midway between Ford's Mills and the power house of the cotton factory; thence down South River street to Milwaukee street. Spur tracks will be built down Main street to the Doty Works, the Doty Mill, and Thoroughgood Box Factory; also on the race embankment its entire length, taking in every mill and factory on the water power; also a spur track north from the river crossing on North River street to the Doty Factory. Spur tracks will also be put in at the gas house, at Kent's Corn Planter and Box Factory, and at Smith & Gateley's ice houses. If we can get the right of way we shall have the track laid to the Janesville Machine Co.'s shops by six o'clock this evening. The right of way is the only obstacle. No, sir; the railway company is doing this of its own accord. The Northwestern has nothing to do with it, and probably do not know what is going on unless some one has telegraphed to them this morning."
Such is the situation as people have discovered on visiting the scene of operations. The people of Janesville became quite enthusiastic during the forenoon, and brought out the Bower City Band and serenaded the workmen along the entire line of operations, large crowds of people following in procession.
It is said that every available section hand on the Mineral Point and Prairie du Chien divisions of the St. Paul road were brought to this city last night and this morning, to lay the side tracks. There are hundreds of 'em.
It is a move which will cause the people of Janesville, especially the heavy shippers, to rejoice. It is something that they have contended for many years, and the railway company that is now making this convenience for the shippers will reap its reward.
There is some opposition expressed for the continuance of the side track down South River street to the Janesville Machine Company's plant, but it is sincerely hoped this opposition will be overcome in some amicable manner and the track completed now.
Let every one rejoice.

168 cases, crop of 1887, Pennsylvania Seed Leaf, at 124 to 144 cents.
280 cases, crop of 1888, Pennsylvania Havana, at 13 to 11 cents.
250 cases, Sundries, at 64 to 35 cents.
Total, 1,637 cases.

Protect the System from malaria. It is possible to do this even in regions of country where malaria is most rife, and where the periodic fevers which it causes assume their most formidable types. The immense popularity of Hostetter's Stomach Bitters is very largely due to the fact of its efficacy as a remedy for chills and fever, bilious remittents, and as a preventive of the various forms of malarial disease. In those portions of the West and South where complaints of this nature prevail, and in the tropics, it is particularly esteemed for the protective influence which it exerts; and it has been very widely adopted as a substitute for the dangerous and quinine, and other poisonous and expensive remedies which have not been among the last physicians have not been among the last to concede its merits, and the emphasis professional endorsements which it has received have added to the reputation it has obtained at home and abroad.

Directors' Meeting.
There will be a special meeting of the directors of the Loan, Savings & Building Association at the office of Miss Heyner, Wednesday evening, May 28th, at 7:30 o'clock, for the purpose of selling money to members wishing to borrow.

S. B. SMITH, Pres.
A. P. EURNHAM, Sec.

TO BE FREE FROM SICK HEAD-aches, biliousness, constipation, etc., use Carter's Little Liver Pills. Strictly vegetable. They gently stimulate the liver and free the stomach from bile.

FOR SALE CHEAP—A Remington typewriter, No. 4, in good condition. Enquire at this office.

CRUSHED BY A RAIL.
Two Men While Laying Track This Morning Hurt by a Falling Rail.

Two men laying track were hurt this morning by rails falling on their feet. One of them, whose name could not be learned, lost his great toe. He lives at Madison, and was taken from the company surgeon's office to the depot in the patrol wagon. The other man's name was George Kelly, and his home is at Milton Junction. He had his foot quite badly crushed. Both are doing well.

THE WEATHER.
For Wisconsin—Fair Weather. Except Showers at Southeast. Cooler. Northwestern Winds.

At seven o'clock on Sunday morning the thermometer indicated 68 degrees above zero. Clear with southwest wind. At one o'clock p. m. the register was 72 degrees above zero. Partly cloudy with southwest wind. For the corresponding hours last year the register was 50 and 61 degrees above zero. At seven o'clock this morning the thermometer indicated 59 degrees above zero. Partly cloudy with south wind. At one o'clock p. m. the register was 63 degrees above zero. Partly cloudy with southwest wind. For the corresponding hours one year ago the register was 52 and 65 degrees above zero.

NOT ONE IN TWENTY ARE FREE from some little ailment caused by inaction of the liver. Use Carter's Little Liver Pills. The result will be a pleasant surprise. They give positive relief.

Evolutionary Concepts.
Great interest is being awakened in temperance throughout the state and nation by what is known as the Demorest metal content movement. Since 1886 over 6,700 medals have been awarded the best speakers of temperance recitations, some of which have been sent to England, Scotland, Burma, New Zealand, Australia and Japan. The demand for medals is rapidly increasing, with the prospect that 2,000 will be needed for the present month of May. Up to date, Wisconsin has secured 169 silver and three first gold medals.
Rev. E. O. Taylor, superintendent of this work for the state, is now in this city, and proposes to inaugurate a series of contests here at once, and calls for volunteer competitors. Any person under twenty-one years of age may compete for a medal. W. Jennings Demorest, of New York city, furnishes the medals free, and suitably inscribed. When eight or more have secured the silver medal they may compete for a gold medal. Eight having received this may compete for a large gold medal, and eight holding the larger medal may compete for a diamond medal, which is a large pendant set with diamonds. It
